EVERY SERVICE ON ONE MAP

AI Platform Capability Landscape v1 · 2026-10-18 · Pete Corcoran

8 **areas**, 25 **capabilities**, 127 **services**. A service is one functional pattern on one asset.

BA1 Session & Turn

5 capabilities · 20 services

SESSION STORE

- **Session Catalog** — Register · Session
- **Transcript Log** — Maintain · Transcript
- **Workspace Binding** — Register · Workspace
- **Attachment Store** — Maintain · Attachment
- **External Reference** — Register · Reference

TURN LOOP

- **Turn Execution** — Fulfill · Turn
- **Tool Call Dispatch** — Process · Tool Call

TURN CONTROL

- **Turn Interrupt** — Operate · Turn
- **Message Steering** — Process · Inbound Message
- **Human Input Request** — Agree · Question
- **Run & Spend Limit** — Allocate · Budget

CONTINUITY

- **Resume Set** — Track · Session
- **Session Search** — Analyze · Transcript
- **Session Fork** — Provision · Child Session
- **Progress Checkpoint** — Process · Checkpoint
- **Session Share Link** — Fulfill · Share Link

RECOVERY

- **File Rewind** — Maintain · File Snapshot
- **Context Compaction** — Process · Context
- **Archive & Erasure** — Administer · Session
- **Transcript Export** — Fulfill · Export

BA2 Authority & Configuration

4 capabilities · 19 services

ADMISSION

- **Workspace Trust** — Agree · Folder
- **Managed Policy** — Administer · Policy
- **Content Exclusion** — Administer · Exclusion Rule
- **Untrusted Content Guard** — Assess · Content

IDENTITY

- **Account & Credential** — Register · Account
- **Data Use Consent** — Agree · Consent
- **Agent Credential** — Register · Agent Identity

EXECUTION CONTROL

- **Sandbox Policy** — Administer · Sandbox
- **Network Egress** — Administer · Network Rule
- **Approval Mode** — Administer · Approval
- **Remembered Grant** — Register · Grant
- **Permission Stream** — Track · Permission
- **Secret Redaction** — Process · Secret
- **Secret Injection** — Process · Credential
- **Content Safety** — Assess · Output
- **Audit Export** — Fulfill · Audit Record

CONFIGURATION

- **User Settings** — Administer · Setting
- **Project Settings** — Administer · Project Setting
- **Feature Flag** — Administer · Flag

BA3 Extension & Tools

3 capabilities · 20 services

NATIVE TOOLS

- **Shell Execution** — Operate · Terminal
- **File Edit** — Operate · File
- **Code Search** — Analyze · Codebase
- **Web Retrieval** — Process · Web Page
- **Browser & Computer Use** — Operate · Desktop
- **Code Interpreter** — Operate · Interpreter
- **Language Service** — Analyze · Symbol
- **Codebase Index** — Maintain · Index

PACKAGES

- **Skill Pack** — Register · Skill
- **Plugin Marketplace** — Administer · Plugin
- **MCP Server** — Administer · Server
- **Skill Mining** — Analyze · Trajectory
- **Plugin Verification** — Assess · Plugin
- **MCP Sampling** — Fulfill · Sampling

BEHAVIOR

- **Slash Command** — Operate · Command
- **Workflow Script** — Fulfill · Workflow
- **Persona Definition** — Design · Persona
- **Role Assignment** — Allocate · Role
- **Lifecycle Hook** — Process · Event
- **Output Style** — Design · Style

BA4 Memory

3 capabilities · 14 services

BRIEFING

- **Prompt Assembly** — Process · Prompt
- **Instruction File** — Design · Instruction
- **Instruction Precedence** — Design · Context Order
- **System Prompt Override** — Administer · System Prompt
- **Dynamic Context** — Process · Context Item
- **Context Budget** — Allocate · Context Window

RETENTION

- **Memory Index** — Maintain · Memory
- **Topic Note** — Register · Note
- **Knowledge Base** — Maintain · Knowledge
- **Team Memory** — Agree · Memory
- **User Profile** — Register · Profile

PIPELINE

- **Memory Maintenance** — Process · Memory
- **Memory Retrieval** — Analyze · Memory
- **Memory Erasure** — Administer · Memory

BA5 Change & Review

2 capabilities · 8 services

CHANGE SET

- **Change Staging** — Maintain · Changeset
- **Edit Attribution** — Track · File Edit
- **Commit Authoring** — Fulfill · Commit
- **Worktree Isolation** — Administer · Worktree
- **Repository State** — Monitor · Repository

REVIEW

- **Review Annotation** — Assess · Annotation
- **Code Review** — Assess · Change
- **Pull Request Flow** — Fulfill · Pull Request

BA6 Orchestration

4 capabilities · 15 services

PLANNING

- **Execution Plan** — Design · Plan
- **Goal & Budget** — Track · Goal

DELEGATION

- **Subagent Delegation** — Allocate · Agent
- **Foreign Agent Hosting** — Provision · Agent SDK
- **Competing Runs** — Assess · Trajectory
- **Peer Message** — Process · Message

WORK QUEUE

- **Issue Intake** — Register · Issue
- **Follow-up Queue** — Maintain · Queue
- **Scheduled Job** — Operate · Schedule
- **Event Trigger** — Operate · Trigger
- **Work Board** — Manage · Work Item

REACH

- **Remote Control** — Operate · Endpoint
- **Cloud Run** — Provision · Cloud Session
- **Shared Room** — Operate · Room
- **Fleet Console** — Monitor · Fleet

BA7 Models

2 capabilities · 11 services

MODEL SUPPLY

- **Model Catalog** — Register · Model
- **Model Selection** — Allocate · Model
- **Provider Routing** — Allocate · Provider
- **Local Runtime** — Operate · Runtime
- **Custom Model Build** — Provision · Model
- **Bring-your-own Key** — Administer · Credential
- **Retry & Rate Limit** — Process · Request

COST

- **Generation Control** — Administer · Generation Setting
- **Usage Account** — Analyze · Usage
- **Prompt Cache** — Process · Cache
- **Plan & Entitlement** — Agree · Subscription

BA8 Surfaces & Operations

2 capabilities · 20 services

SURFACES

- **Command Line** — Operate · CLI
- **Headless Run** — Operate · Run
- **Agent Protocol Server** — Provision · Protocol Endpoint
- **Embeddable SDK** — Provision · SDK
- **IDE Attach** — Operate · IDE
- **Messaging Channel** — Operate · Channel
- **Voice** — Process · Audio
- **Multimodal Input** — Process · Image
- **Document Authoring** — Fulfill · Document
- **Media Processing** — Process · Media
- **Media Generation** — Fulfill · Media
- **Canvas Document** — Design · Canvas
- **Desktop & Push Notification** — Operate · Notification
- **Web & Mobile Surface** — Operate · Web App

CARE

- **Runtime Log** — Monitor · Log
- **Telemetry & Crash** — Monitor · Telemetry
- **Version & Update** — Maintain · Install
- **Gateway Liveness** — Monitor · Gateway
- **Health Check** — Assess · Installation
- **Feedback Capture** — Register · Feedback

Platform coverage is read from nine homes on one machine and the runtimes' documented protocols and flags. Coverage is evidence of presence, not a judgment of quality. CC BY 4.0
